

REA SLOVTEAM spol. s r.o.

Banská Bystrica, Slovakia

Technological possibilities

CNC MILLING (4 machining centers) and CNC TURNING (5 lathes), total 9 pieces

- **CNC VERTICAL MACHINING CENTER (Hyundai-KIA):**
2 pieces, table: 500x1000x500 mm with 4 axis

- **CNC VERTICAL MACHINING CENTER (Hyundai-KIA):**
1 piece, table: 400x600x490 mm and 1 piece, table: 500x360x300 mm

- **CNC LATHE (Hyundai-KIA):**
2 pieces, max. turning dimensions: d340 x 420mm

- **CNC LATHE (Hyundai-KIA and DMG MORI):**
3 pieces, max. turning dimensions: d350 x 530mm with driven tools

Conventional machining: sawing, turning, grinding

- **CUTTING MATERIALS**
2 pieces, automatic saws, max. sawing diameter d250 mm
- **CLASSIC TURNING**
max. turning dimensions: d400 x 1200 mm
max. turning dimensions: d360 x 1250 mm
- **ROUND GRINDING**
max. grinding dimensions 250 x 630 mm
- **FLAT GRINDING**
max. grinding dimensions 200 x 600 mm

Measuring

MEASURING:

- 3D measuring device WENZEL LH-8 (800x1000x600) in air condition room

- Gauges for measuring: dimensions, roughness, hardness...We produce parts from: steel, hardened steel, Al and alloys of Al, Cu and alloys of Cu, plastic
